SOURCE An employee of the Posista construction firm.

1. The runway of the K XI airfield at Mimon (051/F95), also known as the air-
field at Hradcany near Doksy, is 2.5 km. long and 80 m. wide. The concrete
topping is 22 - 25 cm. thick and has been put on over a layer of gravel.
The Hradcany field is not suitable for jet fighters, since the runway is
too short. Another obstacle is created by the surrounding woods, which
limits the use of the runway.
2. The military airfield at Milovice (051/G10), also known as the airfield
at Bozi Dv, is reportedly intended for use by jets fighters and bombers.
The runway is said to be five kilometers long.
